

## **Proposed Boundary Change**

**Description:** Reassign the Legacy Park Estates housing development (north of Riverview, east of 65<sup>th</sup> St., south of I-70, west of 61<sup>st</sup> St.), from the Turner Elementary attendance area to the Midland Trail Elementary attendance area. Students would attend Turner Sixth Grade Academy, then Turner Middle School, then Turner High School after completing the elementary grade levels.

**Supporting Rationale:** Enrollment at Turner Elementary for the 2021-2022 school year is approximately 595 students. The desired building capacity is 567 with a full capacity of 652. Turner Elementary is currently operating close to capacity and enrollment at that building continues to increase. Without moving Legacy Park Estates, Turner Elementary risks operating above capacity.

Midland Trail Elementary has a desired capacity of 546 students. The 2021-2022 enrollment is approximately 486. Midland Trail Elementary can easily house the increased enrollment from the boundary change. Midland Trail also currently serves the neighborhood to the north of Legacy Park Estates, so students in geographical proximity would share an elementary school and bus routes are already established.

**Implementation timeline:** The change is recommended to begin October 1, 2021 prior to the properties at Legacy Park Estates becoming available for sale.
