Reasons applicant feels he/she will be an asset to the Turner District and its youth by serving on the Turner Foundation Board:
I have 6 generations of history in Turner. My father, siblings and I, children, and 2 of my grandchildren have attended Turner Schools. I am committed to being involved in the community as long as I am able.
I have been active in our community:
- I was an assistant coach for both our grandkids Turner Recreation soccer teams for several years. My grandchildren participated in other Turner Recreation activities.
- I served as Recorder for Journey School of Choice PTA.
- Having served as Turner Foundation Executive Director for 5 years, I believe I understand the Mission and the processes and, therefore, can help make decisions that will benefit the Turner community.

Please describe what you believe the direction and mission of the Turner Foundation is and/or what it should be:

“The Turner Foundation is dedicated to the continuous development and enhancement of the extracurricular, co-curricular, and cultural experiences of all Turner USD 202 students, families, faculty, and the community through the promotion of academics, activities, athletics, and school spirit.”

I believe the Turner Foundation should do whatever is possible to help support school personnel, students, and our community.

Describe one way you believe the Turner Foundation could be improved:

I hope we can identify more fundraising activities so that we can award larger senior scholarships and I hope we can identify additional ways to help students and teachers.
