TIPS PRICING FORM 1 (Part 1) - GOODS/ITEMS PRICING

The Part 1 proposals, TIPS permits Vendor to utilize either or both of the two goods/items pricing proposal options (and sub-options) identified below with the "Discount-Off Catalog Method" option being much more optimal, usable, and preferred to the "Cost-Plus Markup Option." On Part 1, Vendor is welcome to propose either or both options, and with either option Vendor is able to update their pricing and add/remove items during the life of the Part 1 contract. It is Vendor's responsibility to ensure that all items listed, whether by description, product number, SKU, UPC or other, fit within the scope of this Part 1 solicitation category. Please read the "Vendor Pricing Submission" portion of the Part 1 solicitation document before submitting questions about this form to TIPS.

Option 1 - Discount-Off Catalog Method

This goods/items pricing proposal method is highly preferred over the "Cost-Plus Markup Method" because it is simple and allows Vendor to efficiently add and update its goods/items pricing and does not automatically prohibit federal fixed purchases. Vendor is asked in the attribute questions within the eBid System to propose a minimum discount off of their catalog pricing. Any discount from 0% to 100% is an appropriate response. Then, under this pricing proposal method, Vendor is permitted to provide its "Catalog Pricing" to TIPS in a number of ways, described in Section "A" and Section "B" below. Vendor's minimum discount will always be applied as TIPS "Catalog Pricing" provided herein.

SECTION "A" - Providing "Catalog Pricing" through Line-Item Pricing
 If Vendor desires to list the "catalog pricing" of goods/items that you sell by line-item, you are welcome in so far as here in Section "A" of Pricing Form 1. You are welcome to modify the column and column titles as long as TIPS can identify the item's name and "catalog price." Please note that if you are awarded with this type of pricing submission, you will be able to update the pricing and add/remove items within the category as long as you honor any applicable discounts originally proposed. Specific discounts offered for any brand or item must be lowered for the life of the contract.
