

Dear Dr. Penrose,

Hi this is Carl Rader, and I am sending this letter to ask for permission to graduate a semester early. I want to graduate early so I can start on working in my field of choice which is masonry. I also want to graduate early because I am turning 18 at the beginning of the school year next year and at 18 is when I can start working in this field. My plans after graduation is to work and I already have a job lined up so right after I graduate I can work.

Carl Rader

January 22, 2021

Dr. Penrose,

I am writing to ask that my son, Carl Rader jr, be allowed to graduate at the semester break of the 2021/2022 school year. Only if he completes all the necessary requirements.

It is our understanding that if he takes ENGLISH 12b in the summer and enrolls in 7 courses the first semester that he will be eligible.

Carl will turn 18 about a month into the school year. At this point he does not have plans to go to college. He intends to go into the construction trade, bricklayer to be more specific. We have already lined up an employment opportunity for him once out of high school.

College is not off of the table later down the road for business classes or other job related courses, but at this time we feel it would be better if he could start his career path a little earlier.

Thank you for your time and consideration in this matter.

Carl & Stacie Rader

RE: Carl Rader, Request for Early Graduation

To Whom It May Concern:

Carl Rader has a desire to graduate one semester early so he can use the additional semester to begin pursuing his future career goal of masonry.

Carl currently has 19.5 credits with a 3.34 g.p.a. He is enrolled in 3.5 credits this semester and 3.5 credits next semester. He will need to take English 12 B during summer school. If he passes his courses, he will have the correct credits to graduate in December.

Please let me know if you have any questions or need additional information.

Sincerely,

Nicole McDowell
Counselor
